PUBLISHED WEEKLY IN CANAL POINT BY PAUL RARDIN

CIRCULATING THROUGHOUT THE VAST AGRICULTURAL AREA OF PALM BEACH COUNTY

Small Claims Court Seems Probable

More than 400 business and professional men and women gathered in the auditorium of the Glades Office Building Monday night to hear discussion on a Small Claims Court, which in all probability will be established in Western Palm Beach County.

Small Claims Judge F. A. Currie of West Palm Beach and State Representative Emmett S. Roberts of Belle Glade spoke before the group and outlined the workings of such a court. County Commissioner Paul Rardin of Canal Point presided over the meeting and introduced Judge Currie and Representative Roberts.

Judge Currie said he would be happy to spend at least one day a month in the Glades hearing cases if existing laws will permit such procedure. Representative Roberts said if additional law is needed to establish such a Court in the Glades, that the Palm Beach County Legislative Delegation will have the law passed at the coming session of the Legislature.

Prospects are exceptionally good for establishment of a Small Claims Court in the Glades, was the impression gained by those in attendance at the Monday night meeting. It was pointed out that cases can now be filed in the Glades Office Building with Mrs. Mae Pope, thereby saving at least one round trip to West Palm Beach.

Band Program At Pahokee PTA Meet

Members of the Pahokee Parent-Teacher Association were so well pleased with the results of the two-day Family Relations Institute held at Pahokee High School last month that they voted at the March meeting, held in the school auditorium Monday night, to sponsor a five-day session of the Institute at the school next year.

Mrs. Roy Vandegrift, Jr., the presiding president, appointed Robert B. Simonson, chairman, Mrs. Saraff Thomas and W. E. Johnson on a nominating committee to recommend a new slate of officers at the April meeting.

Mrs. Harold Wilkinson volunteered to serve as lunch room chairman for PTA through the remainder of the current school year.

Mrs. Norman A. Kennedy called for volunteers to assist in the work at the Mobile Dental Clinic when it is stationed at Pahokee Schools the week of Mar. 16. Mrs. Elsworth Keen, legislative chairman for the County PTA Council, explained the purpose of the Legislative Workshop sponsored by the County Council.

The monthly attendance awards were won by Mrs. Edna Maxson's First Grade room at the elementary school and by the Ninth Grade group at the high school.

Mrs. E. C. Johnson's Pahokee Girl Scout Troop 38 opened the meeting with the traditional Flag ceremony which was followed by a brief devotional program, "Can Human Nature Be Changed?" given by the Rev. Robert A. Shelton.

(continued on page 8)

Engineers To Tell Hurricane Work

Palm Beach County will be represented April 9 at a hearing called by the U. S. Corps of Engineers to discuss ways of preventing hurricane damage.

The session will be held at the town hall in Palm Beach and County Engineer Steve Middleton has been instructed by the county commission, to prepare a review of the county's sand pumping operation for prevention of beach erosion.

The Palm Beach hearing, is one in a series the engineers are holding for discussing hurricane damage.

Rotarians Told Of Diversified Plan

The Diversified Cooperative Training program at Pahokee High School, which enables the student to supplement scholastic studies with on-the-job training, was explained to Pahokee Rotarians by James Turner, co-ordinator, at the Thursday luncheon meeting last week with President Robert Aepgren presiding. A radio skit, "It Pays to Be Honest," was presented by five of the DCT students, Shirley Hignite, John Usher, Boyd Vorhees, Wayne Elliott and Gene Dixon. Three other DCT students, Delilah Strayer, Marlene Scott and Dorothy Ezell, were also luncheon guests of the club. Luke Dufresne presented the program in the absence of William S. Plummer who is recuperating from a recent heart attack. Ernest George of the Southern Regional business office of U. S. Department of Agriculture, New Orleans, La., was a guest of B. A. Felcher. Visiting Rotarians were Kenneth Johnson of West Palm Beach and Walter Hooker of Belle Glade.

Tillis Starts CP Cafeteria Work

Wiley Tillis, Pahokee contractor has begun construction work on the new \$36,000 cafeteria for the Canal Point School.

The new structure, which is being erected on the school grounds a short distance east of the old lunch room, is scheduled to be completed within 120 days. Tillis's contract also calls for the construction of bio-loading platform on the side street bordering the school grounds on the south. This platform will be connected with the school building by a covered walkway which will protect the children who have to board the school buses during rainy weather.

Renee Rose Flies From Toronto Alone

Renee Rose, four-year-old daughter of Mr. and Mrs. V. C. Robin of Toronto, Canada, arrived in Pahokee this week to stay with her grandparents, Mr. and Mrs. Kenneth Hitchcock, while her mother is recuperating from surgery performed at a Toronto hospital the first of the week. She made the trip by plane, her grandparents meeting her at the Tampa airport.

Business Is Good Glades Office Bldg.

Business has been good at the Glades Office Building, so says Mrs. George Young in charge of Tax Collector Stetson O. Sproul's office. Especially has the sale of auto tags been good since they went on sale Jan. 1.

Through March 10, the office reported that 7,542 tags in the amount of \$197,715.42 had been sold. Several late comers are being taken care of daily at the tag sales office and the total will continue to mount.

Tax collections at the Glades office aren't what they should be but future years will find more folks paying their taxes there. Through the years Glades taxpayers have gotten into the habit of paying their taxes in West Palm Beach or paying by mail and that habit has been hard to break. However, enough folks have taken advantage of the local office to push the total amount of tax money collected up to \$108,140.00 on March 10 this week.

A total of \$305,855.52 has been collected since opening of the office up until March 10, this week, according to records kept by Mrs. Young at the Office Building.

Cancer Workers In County Are Named

J. Alex Arnette, county chairman for the annual Cancer Crusade, this week announced the appointment of W. Karl Lattons, West Palm Beach, as his assistant campaign director.

Lattons, a long time and well known civic leader, will also serve as Crusade chairman in West Palm Beach in addition to his county wide assignment.

Lattons organized and directed the Palm Beach County Exposition for four years following the war and also served as executive director of the Palm Beach Sanitary District. He is a past president of the West Palm Beach Kiwanis Club and also had an active part in the State Road Department's origin and destination road survey throughout the county.

Chairman Arnette said Lattons is now at work drafting final plans for a county-wide coffee kick off for the Crusade—an event to be held March 26 at the Hotel George Washington in West Palm Beach. Glades officials, Community Crusade Chairman and volunteer workers.

April 1 has been designated as business men's day in West Palm Beach and April 8 has been set as the date for a county wide house to house solicitation.

April has been designated as National Cancer month with Mrs. Dwight D. Eisenhower as National Honorary Chairman and Governor LeRoy Collins, honorary chairman for Florida.

Miss Annette McIntosh, daughter of Mr. and Mrs. H. M. McIntosh of Pahokee, was recently honored at Florida State University when she was tapped for membership in Garnet Key, a leadership organization at the university.

Father Of Lampi Dies In Michigan

Bandmaster Robert O. Lampi was called Thursday of last week to Michigan by the illness and death of his father, Charles O. Lampi, 64, of Eagle River who died at the Laurium hospital Friday morning after an illness of several weeks. His trip to Eagle River was interrupted Friday at Detroit where all planes were grounded by the blizzard that was sweeping across the northern part of the country, according to word received by his wife who was unable to accompany him because of illness.

Allotment Work Field Services

The County ASC Office will provide services for measuring fields planted to peanuts and rice to enable growers to harvest within their allotment. At the same time the field will be staked showing corners of the field so designated.

The fee for premeasurement of rice acreage will be \$15.00 basic charge plus \$1.00 per acre for acreage in excess of 80.0 acres. The fee for premeasurement of peanuts is \$10.00 basic charge plus \$1.00 per acre for acreage in excess of 5.0 acres. The closing dates for accepting premeasurement requests for peanuts is March 15, 1959.

Rice growers may apply for premeasurement any time between June 1, 1959 and June 30.

The applications will be taken at the County Agent's Office in the Glades Office Building, Belle Glade, or at the ASC Office, Mount's Building, 531 N. Military Trail, West Palm Beach.

Workshop Plans For The Retarded

The county commission this week got its first look at a scale model from which a workshop will be built for retarded children on a site being made available by the board.

Model of the school was displayed for the commission by Mrs. Theodore Morley, president of the Palm Beach County Association for Retarded Children.

The model, she said, has been completed by two students as part of their thesis for the Cornell Architectural School.

About \$50,000 will be needed to build the school, and until funds are available, the association is going ahead with classes in space made available by the Lantana Lions club. Plans are to complete the project as section at a time.

Sub-Division May Be Built Pahokee

A new sub-division may be built in Pahokee in the not too distant future if present plans materialize according to Mayor Dick Parrish who returned Tuesday night from a trip to Tallahassee where a group of Pahokee city officials appeared before members of the Internal Improvement Board in an effort to secure 157 acres of state land on which to build the subdivision.

The mayor was accompanied on the trip by Councilmen Sonny Brown, Billy Ray Moseley and George Tucker and City Attorney Ralph Johnson, Morris Simpson, of Lake Worth, who proposes to develop the subdivision, were also in attendance at the meeting. Manning Keen of Pahokee was also in attendance at the meeting.

Mayor Parrish said the II Board members signified their willingness to go along on the idea of selling the necessary 157 acres of land at public auction (as is the usual manner of disposing of state land) providing the land is to be used for the suggested housing project.

The tract of land is on Bacon Point Road and is adjacent to the southern city limits of Pahokee. It is proposed that the area, if and when the development plans are completed, will be annexed by the City of Pahokee. Special legislation will be sought at the upcoming session of the legislature to allow the city to annex the area.

City officials and the mayor were optimistic over the outlook for the development and stated Wednesday morning that an ultimate of 400 to 450 homes may be built in the area. The mayor said that present plans call for the sale of these homes at \$8,000 to \$12,500, to be sold with a nominal down payment and low monthly payments.

Funeral Services Barbara Hewell

Funeral services for Mrs. Barbara N. Hewell, 42, of Canal Point were held in the chapel of Williams-Wetherington Funeral Home, Pahokee, Wednesday at 10 a. m. with the Rev. Charles Stewart, pastor of the Canal Point Baptist Church, officiating. The services were followed by cremation.

Mrs. Hewell died at the Everglades Memorial Hospital at 6:57 p. m. Monday, from burns received when her trailer home caught fire and was destroyed. Mrs. John Stedham, a neighbor, noticed smoke coming from the trailer shortly after 2 p. m. Monday and called for help after she was unable to get the door open. Men working on the new Canal Point School cafeteria across the street broke the door open and carried Mrs. Hewell, who evidently had fallen asleep on the couch at the end of the trailer and was unconscious, from the burning trailer.

She is survived by her husband, Clarence J. (Jack) Hewell, Pahokee, and one son Robert E. (Bud) Hewell, West Palm Beach.

Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

The county commission this week denied a request from the Surburban Water Company for an increase in rates for hauling garbage and trash in the Belvedere Homes-Golfview Heights areas.

The company was before the commission two weeks ago to ask a boost in rates from \$1.50 per month to \$1.75. Their request met opposition from the residents of the area and the commission granted a two week period for the franchise holder and residents to get together for a conference.

Monday, Mrs. Alice Skaggs, representing the residents, said the conference had been held but that "no facts or figures were found to back a rate increase." She said residents favored a 90-day-trial period during which the company could attempt to improve its service.

The commission, after hearing from its Mosquito Control Division, that the company had been guilty of some franchise regulations, turned down the rate boost request but left the way open for the company to re-apply after meeting re-

quirements of its franchise.

The Ruben Construction Company, West Palm Beach, appeared to be the apparent low bidder for rebuilding Dogwood Road in Golfview Heights, after bids on the project were opened by the county commission.

The firm submitted a price of \$3,049—about ten percent less than the county engineer's estimate for rebuilding the street. The job is being done under the county plan for rebuilding streets out of a revolving fund which the county does the work and is repaid by property owners whose land fronts the improved street.

The county commission this week voted to call for bids for clearing timber from its rockpits in the Lantana area.

Their action followed a request from Theodore Rowes, that he be allowed to clear the land, paying the county \$75 per carload of timber removed.

In other actions this week, the board:

Authorized County Engineer Steve Middleton to attend a beach

erosion meeting at Sarasota April 16.

Named Vice Chairman Paul Rardin and Commissioner Roy Michael, to represent the board at a ground breaking ceremony March 15, starting construction of a new Legion Home in Riviera Beach.

Referred to the county engineering department, a request from the community of Briny Breezes to change markings on State Road A1A through the section in an effort to cut down the speed of cars on the road.

Named Commissioner Kenneth Foster, County Engineer Middleton and E. A. Seabrook, mosquito control director, to study present facilities being made available by the county for dumping trash and garbage.

Youth Group To Visit Shut-Ins

Plans to visit shut-ins during Holy Week were made by members of the Pahokee Intermediate Methodist Youth Fellowship at a council meeting at the home of Mrs. Lloyd Hundley, counselor for the group. Wayne Boynton, Willie Adams, Billy Boe and Sue Brower were named program chairmen for Mar. Jan Plumer and Dottie Lair were appointed to have charge of the Worship Center for the same period. Tentative plans to attend the Methodist Youth Camp near Leesburg, July 6-11, were discussed.

Tax Group To Axe Proposed Budget

TALLAHASSEE—The state legislative council's special tax committee will recommend to the coming State Legislature that \$35 to \$40 million be whacked off the proposed budget for the next two years.

The committee's action followed a disclosure that joint house-senate appropriations committees have been thinking in terms of a \$685 million general spending bill for 1959-61.

The joint committees are figuring on a flat five per cent reduction in the \$725 million budget recommended by the cabinet, bringing the bill to about \$688 million. But House Chairman W. C. Herrell of Dade County says this can be reduced further to \$685 million.

The cabinet originally based its recommendations on Budget Director Harry Smith's estimate that present taxes will produce \$726 million. The council's research staff said its study indicates, however, that Smith's estimate may be \$25 million off.

Tommy Tillis, small son of Mr. and Mrs. Frank Tillis, is a patient at the Everglades Memorial Hospital this week.

...Growing with the Future

Salute to FLORIDA COUNTIES

PASCO COUNTY
County Seat,
Dade City

SITE OF THE WORLD'S LARGEST CITRUS PROCESSING PLANT

Since its beginning in 1887, Pasco County has become noted for diversified agriculture, citrus, cattle and poultry. Rich in products, tradition and natural beauty, this citrus and cattle growing region, dotted with lakes and rolling hills, has 31 miles of almost undeveloped coastline... a natural fishing paradise that also provides commercial profits. Pasco ranks 2nd in egg production in Florida Counties. County Seat Dade City boasts the world's largest citrus processing plant. Each year, streams of tourists are attracted to the annual Pasco County Festival.

In progressive Pasco County, and throughout Florida, the United States Brewers Foundation works constantly to assure the sale of beer and ale under pleasant, orderly conditions. Believing that strict law enforcement serves the best interest of the people of Florida, the Foundation stresses close cooperation with the Armed Forces, law enforcement and governing officials in its continuing "self-regulation" program.

Pick your savings target and shoot straight for it!

A home . . . financial security . . . a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$2053 in cash; in 10 years, \$4448.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

For the big things in your life, be ready with U. S. Savings Bonds

The U. S. Government does not pay for this advertising. The Treasury Department thanks, for their patriotic donation, the Advertising Council and

10th Anniversary C. Pt. Lions Club

On Monday night, March 16, Canal Point Lions will celebrate their Tenth Anniversary, according to President Harlan H. Sears. A. R. Harrington, Floyd Erickson and Albert Fremd are in charge of arrangements and said yesterday that State's Attorney Phil O'Connell will be the featured speaker.

The Lions will celebrate their ten years of existence with a dinner in the Community Building Monday evening when special recognition will be given charter members who are still active in club work.

Lions District Governor Victor H. Semet of Margate will be present as will Deputy District Governor Hubert Hardin of Okeechobee. Wives of Lions will be dinner guests.

Disabled Workers Qualify For Benefit

Money is being lost by many families of disabled workers in Palm Beach County who are receiving social security benefits. This is because an application has not been filed with the Social Security Administration for dependent's benefits payable due to recent changes in the social security law. R. C. Gehrkens, Jr., Manager of the West Palm Beach Social Security District Office, explained in a statement today.

If you are receiving disability insurance benefits as a disabled worker, age 50 to 65, monthly payments beginning for the month of September 1958 may now go: (1) to your children under age 18; (2) to your disabled son or daughter over 18 years of age if the disability began before his or her 18th birthday; (3) to your wife age 62 or older (or your dependent husband, age 65 or older); (4) to your wife under age 62 if she has in her care a child under age 18 or a totally disabled child 18 or over who is eligible for benefits.

Dependents who may be eligible for these benefits should contact the social security office promptly as payments cannot be made until an application is filed with the social security office.

A representative of the West Palm Beach Social Security Office regularly visits Pahokee. Your local postmaster can tell you the time and place of his next scheduled trip.

PRE-CUT POTATOES BENEFIT FARMERS

Cutting seed potatoes before shipment to growing areas is getting a thorough trial by USDA-State crop and marketing researchers, reports the March issue of Florida Grower and Rancher.

Pre-cutting saves time and labor for the potato farmers, and maintains high seed quality and crop yield. It also reduces the numbers of acres needed to produce seed potatoes and lowers seed growers' costs.

Because they are healed and ready for planting on arrival, pre-cuts have a real advantage over freshly-cut seed potatoes. Unhealed fresh cuts may decay when planting is held up or when cool, wet weather hits new plantings.

Storage periods, some as long as nine months, had little effect on yields from pre-cut seed potatoes in experimental trials. Both early and late-maturing varieties yielded well.

Steven Chastain Has A Birthday

Steven Chastain celebrated his eighth birthday anniversary at a party given by his mother, Mrs. Oscar Chastain, at the Canal Point School with Steven's classmates of Mrs. Helen Henderson's Second Grade Room attending as guests. Refreshments of cake, ice cream and orange juice were served by the hostess.

National Engineers' Week

Engineering Career in the 'Space Era' Requires Broad Preparation in Science

Q. What kind of educational background does a young person need today for an engineering career in the "age of space?"

A. Solid preparation in a wide range of basic science subjects and plenty of mathematics.

Science and mathematics, science and mathematics—those are the key words heard over and over at career conferences for high school seniors interested in engineering. And it's no surprise in an era when industry expects engineers to be able to work in such exotic new fields as electronic computer systems, transistor design, outer space environment, inertial navigation devices for space vehicles, atomic energy, rocket fuels, and telemetering.

This month, students attending high school career conferences are hearing more about the science requirements for engineering as the members of one of the largest professions observe National Engineers' Week, February 22-28. What the students will hear at these career sessions is a message that gets right to the heart of the most crucial problems facing the U. S. today—the encouraging of properly qualified young people for life work in the fields of science and engineering.

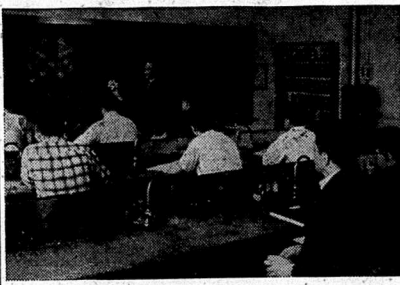

Engineer Builders

There was a time when an engineer was most likely a builder of roads, bridges, dams, heavy machinery, or railroads. He had a good foundation in basic mathematics, but his work could best be described as the practical exploitation of long-known scientific laws and discoveries.

Today the picture has changed completely. The engineer is more likely to be working right up with the physicist, chemist, or other research scientist as industrial firms join in pushing back the frontiers of the unknown. The engineer is increasingly expected to have, or be working toward, a Ph.D. His education has stressed higher mathematics, physics and chemistry. If certain engineering education trends continue, the student now starting in grade school may find, if he chooses an engineering career, that his undergraduate college course schedule for engineering will be made up entirely of math and physical science subjects.

To understand the kind of educational background an engineer needs today it is necessary to grasp the enormous scope of the scientific and technological expansion in which we are now involved. Through scientific man is rapidly changing the face of the earth, utilizing atomic forces as sources of energy, orbiting devices around our planet, the moon, and even the sun, and is only a few years away from actually setting foot on other worlds millions of miles out in space.

As a part of this expansion of intellectual horizons, engineers are finding themselves developing plans and specifications in which are larger and larger charted areas which have been researched only around the fringes. Take, for example, the

A career in engineering actually begins in high school math and science classes. Modern industrial research and technology requires a high-level understanding of the theoretical aspects of such subjects as physics, chemistry, and electronics on the part of the engineering profession.

current military and civil activity concerning the exploration of the solar system. The conquest of space is so far, and will continue to be, the end product of millions of engineering man hours. Each space vehicle launching represents the concentrated efforts of engineering teams throughout a wide segment of industry. The individual engineers in this team effort must have a broad scientific background to plan and design the needed equipment for satellites and the various space probes. The chemical engineers cannot simply refer to existing charts and tables for data on what fuels to specify. Nor can the electronic engineers expect to find ready-made devices to guide a rocket to the moon or measure the radiation of space a thousand miles from earth. Every instrument package "payload" in a multi-stage rocket calls for a unique engineering design for a particular research program.

Outer Space

The further we move into outer space, the less physicists and astronomers are able to furnish in the way of factual information regarding temperature, density, radiation intensity, and the like. Engineers working in these space projects have to design equipment which will function under many unknown conditions. As research scientists learn about conditions on the vicinity of the moon and the planets, engineers must be able to rapidly incorporate this new knowledge into their current equipment design.

The science background needed by engineers today is perhaps best seen in the post-graduate educational requirements set up by many industrial firms with large research and development programs. These firms often expect the young engineer to continue his education, at the graduate level, in a number of highly theoretical and advanced courses. The reason for this is that industrial research may well mean the difference between industrial progress and stagnation.

Without a well-rounded preparation in mathematics and the basic physical sciences, the young engineer could not master graduate courses in such fields as solid state physics, nuclear physics, and electronics. Without this theoretical knowledge, he could not do professional work at the advanced level of modern industrial research and design.

Atomic Industry

A whole new industry—atomic energy—is being built on the theoretical foundations of the "new physics." Engineers in this industry must have an educational background in atomic theory. To acquire this background in college, they need a solid high school preparation in mathematics, physics, and chemistry. To adequately cope with these subjects in high school, the student should have a good understanding of elementary arithmetic.

It is just this type of analysis of our educational problem that has resulted in so many public expressions of concern over the future of science and technology in the United States. With our military and industrial capacity so closely allied with progress in science and engineering, it is clear that a great deal depends on the achievements of our future scientists and engineers. If these achievements are strongly influenced by educational preparation, it would seem that we have no time to lose in making sure that our properly qualified young people have the opportunity for the best possible elementary and high school background in math and science subjects.

Opportunity

Engineering in the second half of the 20th Century is a career of opportunity. Interested young people or their parents may obtain a free booklet which gives the basic facts about this challenging profession. The booklet, "Engineering—A Career of Opportunity," is available from the National Society of Professional Engineers, 2029 K Street, Northwest, Washington, D. C.

Farm Safety Plan Now Nation Wide

"The Safety On The Farm Program" inaugurated in 1938 by Commissioner of Agriculture, Nathan Mayo is today nation-wide and has resulted in the saving of many farm lives and improved farm conditions throughout the state. Since 1938, farm accidents have been cut considerably, but there is still room for improvement. There were a total of 14 fatalities on the farm last year and 15 farm workers killed off the farm and many injured.

Farm Safety precautions are much like those for urban areas. But because most farms are farther from organized aid, more thorough safety precautions are necessary.

Asher Frank, Director of the Florida Safety Council, lists the following safety precautions.

Fire is one of the worst hazards of the farmer. Make your farm as fireproof as possible by keeping barnyards and buildings clean and free of debris. Don't smoke in the barn. Properly store all flammable liquids. Always have some type of fire extinguisher handy.

Be sure all old wells and holes are covered to keep children out. Keep your ladders in good repair and always use one long enough.

Avoid tractor accidents. Learn to recognize the hazards and avoid them. Don't speed. Be careful on uneven ground and ditches.

Beware of blasting caps. At times it's necessary to use them around the farm for clearing land and removing stumps. Never store them for future use as a child might accidentally get them.

Always read and understand the label on a pesticide package. Store them where children cannot get them.

Keep cars and trucks in good condition and Drive Carefully.

"Follow these safety precautions and enjoy Life On The Farm," concluded Frank.

Sun Dance Group Important Meeting

WEST PALM BEACH—Seminole Sun Dance, Inc., will hold an important meeting of all members of the Board of Governors, the committee chairmen, and the division heads, at 7:30 p. m. Monday, March 16, at the Elks Building, N. Olive Ave. and 5th St., according to Norman B. Hart, Jr., general chairman of the Sun Dance celebration.

The purpose of this meeting will be to lay plans for Sun Dance week, to be sponsored by West Palm Beach Jaycees, April 20-26, with its large number of activities; set up a schedule; outline the entire program; and answer many questions. In other words, bring everyone up-to-date," Hart said. "Large attendance is anticipated." Portions of the musical production, slated to be presented by Frank J. Hale and Paul Crabtree each night during the week-long Sun Dance, will be given by James Dyas, stage director; Will Irwin, composer of the musical score; and the choreographer.

"Much has been accomplished thus far in planning for the Sun Dance celebration, but a tremendous amount of work remains to be done," Hart said. "All members of the Board of Governors, the committee chairman, and the division heads should be present at this meeting. To get into the harness and pour in the greatest community celebration ever to be held in Palm Beach County. Suggestions will be appreciated, and full reports to date on the different events will be expected."

NOW WITH EASTERN

Miss Marcia Jean Guthrie, granddaughter of Mr. and Mrs. I. S. Guthrie of Pahokee, who has been residing in Fort Lauderdale while in the employment of the State Treasurer at the Dania branch office, has accepted a position in the personnel offices of Eastern Air Lines, Miami, and is now making her home with her father, Norwood Guthrie, and family in Miami.

Non-Farm Workers At All Time High

TALLAHASSEE—Florida non-farm employment hit a new all time high of 1,262,110 in January and unemployment dropped 1,300 from December, State Industrial Commission Chairman James T. Vocolle reported today.

Vocolle said there has been a continuous new high in employment in the state for the past several months up to the January peak which was 8,100 over December and 65,800 above January, a year ago.

He said the drop in unemployment reverses the usual seasonal uptrend when unemployment and employment rise together. The commission's special seasonal employment index two points, indicating more than a seasonal gain. Settlement of the Eastern Air Lines labor dispute was an important factor in the gain.

Vocolle said the considerable em-

ployment increase over the year ago estimate represents a continued recovery from last year's recession and a return to a gradual increase in the growth rate. The rise began last March.

Vocolle pointed out that at the same time, however, there exists an unemployment total of 83,200 in the State which was 15,300 more than January a year ago. This paradoxical situation of more people employed and more unemployed results from the presence of more people in the State, Vocolle said.

Manufacturing, transportation, communication, public utilities, and service was responsible for most of the January increase.

Expansion in citrus canning and preserving plants provided most of the manufacturing boost of 2,500 to a January level of 195,500 or 12,000 above a year ago.

The return to work of Eastern Air Lines employees accounted for most of the 6,300 increases in transportation.

Public utilities to January's 96,500. But it was still 1.7 per cent under a year ago.

Service establishments added 12,500 to their payrolls in January for a total of 201,000. Hotels registered more than half that gain as the winter tourist season neared its peak.

Although trade employment fell off 10,300 from December to 359,200 as extra Christmas workers were released, it was 18,800 above last January.

Tourist-related restaurant recorded a substantial gain to help hold eating and drinking places at 4,790 over December to 62,900, but virtually unchanged from last year.

Contract construction held about even with December at 129,500, a hefty 8,900 more than a year ago.

SPRING WORKDAYS

The Canal Point Garden Club has started a series of spring workdays for the completion of club projects. The workdays are being held on the first and third Thursdays of each month, starting at 10 a. m., with a sandwich luncheon at noon, according to Mrs. A. R. Chastain, chairman.

PERSONAL NEWS NOTES

Miss Mattie Bain returned to her home in Coats, North Carolina, Sunday after several weeks as guest of Mr. and Mrs. Paul Rardin.

Mrs. J. B. Seckinger of Glenville, Georgia, is the guest of Mr. and Mrs. Paul Rardin this week.

Mrs. C. W. Connally, Mr. and Mrs. Bill Connally and children of Coral Gables were the weekend guests of Mr. and Mrs. J. S. Chastain and Mr. and Mrs. Ray Singletary. Mrs. Connally celebrated her 79th birthday Sunday with her daughters, Mrs. Singletary and Mrs. Chastain and families.

Miss Nancy Lee Thomas was the guest of friends in Stuart Sunday. Mrs. C. L. Stuart was taken by ambulance from Everglades Memorial hospital Monday to Good Samaritan hospital in West Palm Beach where she is a patient.

Mr. and Mrs. I. S. Guthrie had as a guest over the weekend their son, Bill Guthrie of Miami.

R. H. Culberson and son, Herbert, of Lake Wales and W. E. Culberson of West Palm Beach visited their mother, Mrs. Ada Culberson, and other relatives in Pahokee over the weekend.

Vance Shirley, small son of Mr. and Mrs. Jimmy Shirley, was able to return to his home in Pahokee this week from St. Mary's Hospital, West Palm Beach.

Mr. and Mrs. E. F. McIlwain and daughter, Jill, visited their son and daughter-in-law, Mr. and Mrs. Chandler McIlwain, in Fort Lauderdale, Sunday.

Mr. and Mrs. C. H. Williams and children and Mr. and Mrs. W. J. Hancock and children, all of Orlando, spent the weekend in Pahokee visiting Mrs. Williams' and Mrs. Hancock's parents, Mr. and Mrs. George Tombaugh, and sister, Mrs. Lloyd Clifton, the latter being a patient at the Everglades Memorial Hospital.

Dicky and Neva Clifton, small children of Mr. and Mrs. Lloyd

Clifton, are making their home with their uncle and aunt, Mr. and Mrs. C. H. Williams, in Orlando during the illness of their mother who is a patient at the Everglades Memorial Hospital.

Mr. and Mrs. Robert J. Schroeder and Mrs. Helen Schroeder spent Sunday in Vero Beach visiting the latter's cousin, Mr. and Mrs. Charles Kurtz.

Mrs. Gertrude Williams, a patient at the Everglades Memorial Hospital for several days, was able to return home Tuesday.

Mrs. Eva Lowery had as guests the past week her nephew and niece, Mr. and Mrs. Robert Bendix of Lake Charles, La.

Christian Science Group Of Canal Point

How reliance on God's inexhaustible goodness brings abundance will be emphasized Sunday at Christian Science services.

The blessings of trust in God are brought out in passages to be read from the Bible, including this one from Psalms (34:8-10): "O taste and see that the Lord is good: blessed is the man that trusteth in him. O fear the Lord, ye his saints: for there is no want to them that fear him. The young lions do lack, and suffer hunger: but they that seek the Lord shall not want any good thing."

Readings from "Science and Health with Key to the Scriptures" by Mary Baker Eddy in the Lesson-Sermon entitled "Substance" will include this well-known statement (494:10-11): "Divine Love always has met and always will meet every human need."

The Golden Text is from Psalms (36:5): "Thy mercy, O Lord, is in the heavens; and thy faithfulness reacheth unto the clouds."

Girl Scouts In National Week

Pahokee Girl Scouts and Brownies began their observance of National Girl Scout Week Sunday when the Brownies attend the services at the First Baptist Church and the intermediate group of Girl Scouts, services at the First Methodist Church. The week of special programs will end today when Pahokee Girl Scouts will join other Scouts of Glades area at a Girl Scout Pow-wow in Belle Glade. Adult leaders of Pahokee Girl Scouts assisting in program plans include Mrs. Donna Pluiner, Cypress Neighborhood chairman, Mrs. Helen Jean Boynton, Mrs. Lorraine Morgan, Mrs. Mazella Brower, Mrs. Barbara Branch, Mrs. Alyce Tyson, Mrs. Ethel Johnson and Mrs. Blanche Humphreys.

Of the many Easter Sunrise Services in the nation, the only one to be held on the very edge of the Atlantic Ocean will be at Jacksonville Beach, Florida.

Patterson Circle At George Home

The Ione Patterson Circle of the Canal Point Baptist Church met at the home of Mrs. M. F. George. The devotional was given by Mrs. W. White using Mark 5-19. "Go home to thy friends and tell them what great things the Lord hath done for you."

Mrs. O. H. Chastain was in charge of the program. Mrs. T. D. Mullins reviewed Southern Baptist work in the mountains of Alabama, Tennessee, Kentucky and in north Panama.

Mrs. W. S. Evans, circle chairman presided at the business session of the meeting. Mrs. M. F. George, Children's Home chairman reported a large box ready to be sent to the Children's Home and thanked the ladies of the church for their generous donations.

Cake and coffee were served to eleven circle members and one guest Mrs. L. Bordeaux of Philadelphia, Penn., a house guest of Mrs. J. H. Bordeaux.

Methodists Study "Isaiah Speaks"

The first session of the WSCS study course from the book, "Isaiah Speaks," was held at the Pahokee First Methodist Church Thursday morning of last week with members of the Pahokee and Canal Point WSCS attending. The study was directed by Mrs. John A. Dulaney of Belle Glade with Mrs. Robert Hatten, Pahokee spiritual life chairman, in charge of arrangements. Mrs. Hatten is being assisted in the presentation of the study, which will continue through March with study session every Thursday morning, by Mrs. J. M. Elliott, song leader, Mrs. Calud Morgan, pianist; Mrs. Olga Pugh, room arrangements; Mrs. John Padgett, secretary; Mrs. C. C. Lemonds, worship; Mrs. Mrs. Duncan Padgett, coffee hour; Mrs. C. A. Major, Mrs. C. L. Stuart and Mrs. M. P. Holman, devotionalists.

The Florida Egg Commission advises housewives to rinse particles of egg off dishes with cold water before washing them as it makes them easier to wash.

**"electric range
 is much safer
 with small children"**

Mrs. M. Auerbach, 254 Hibiscus Ave., Stuart, is really proud of her newly remodeled all-electric kitchen and laundry, equipped with electric built-in oven and range, hot water heater, refrigerator-freezer, automatic washer-dryer and plenty of work-saving appliances. She says: "I feel that my electric range is much safer to use with small children in the house. I enjoy my electric appliances because they are cleaner to use and very convenient. Electric power is always available and ready for instant use."

for less work, more fun...
 join the
SWING TO ELECTRIC COOKING

Electric cooking is white-glove clean. No soot, no greasy film. No scorched pots and pans. Housekeeping's easier... kitchens stay 8 to 16 degrees cooler.

Food tastes better, because flameless electric cooking is practically "waterless" cooking. Seals in all the goodness.

Flameless electric cooking is the safest ever. No constant-burning pilot lights.

And remember... Sunshine Service is the budget's biggest bargain. It's cheaper to go all-electric in the kitchen-laundry than to use a combination of fuels.

a castle in the air costs nothing
—but you can't live in it!

Make your dream house come true! It's easy
—through Payroll Savings!

If you think you can't own the home of your dreams because the down payment's too steep, chances are you've never tried the Payroll Savings Plan. Because this is the easy, automatic way to meet any down payment—for a house or any large purchase.

Just do this: Sign a Payroll Savings application at your pay office, naming a certain sum to be kept aside from your pay before you get it each week—a few dollars or as much as you want. After that, you're saving automatically—nothing to worry about, nothing to do. And, best of all, the money saved out of your pay each week is automatically invested for you in U. S. Savings Bonds.

Because Savings Bonds earn solid interest—3% cumulative semiannually when held to maturity.

—the few dollars saved from your pay each week soon grow into big generous amounts. For instance, if you sign for \$12.50 a week, in just five years you'll have \$3,348.95 cash. In 9 years, 8 months, you'll have \$7,227.29!

So don't let down payments get you down. Meet your needs for ready cash the way more than 8 million other Americans are meeting theirs—join the Payroll Savings Plan today. Or, if you're self-employed, invest in Bonds regularly where you bank. Start now to make your dreams come true!

If you want your interest as current income, ask your bank about Series 'H' Bonds, which pay dividends monthly by Treasury check.

Choose your own savings goal

	If you want approximately		
	\$5,000	\$10,000	\$25,000
Set-aside for 5 years and 6 months, save.....	\$5.00	\$10.75	\$26.00
Set-aside for 10 years and 6 months, save.....	\$5.75	\$12.00	\$29.75

This chart shows only a few typical examples of savings goals and does not include all possible goals. Remember: You can save any amount you wish. For more information, ask your pay office or the nearest U.S. Savings Bonds Office.

The U. S. Government does not pay for this advertising. The Treasury Department thanks, for their public service, the Advertising Council and.

Sheriff's Deputies At Home In New Office Building

Sheriff John F. Kirk's deputies in the Glades are conveniently housed in the new Glades Office Building and the radio crew is ready to render an outstanding round the clock radio service to the folks in the Glades—a service heretofore unknown. The radio in the Glades office building is now being operated on a temporary set-up being connected with the West Palm Beach station. Within the next few days construction will start on a new 120 ft. tower which will give the local deputies pin-point reception all over the western section of Palm Beach county. The tower—120 feet in height—will be an innovation in south Florida since it will be the new guyness type—erected on a base in such a manner that no guy wires will be necessary, according to the company and engineer who designed it. Shown in the picture are members of Sheriff Kirk's staff who serve the Glades: Front row: (l-r) Miss Louise Strobel, Mrs. Charlene Shultz, day and night dispatchers; respectively, and Miss Lu Ann Austin, relief dispatcher. Back row: Deputies, Lee Wroten, Gibb Gross, Theo York, Frank Prevatte, Lavon Bass, late night dispatcher; Deputy Frank O'Connell, Sheriff John Kirk, Sr. and Deputy Bobby Newman.

Elias McKeen Dies Of Heart Attack

Elias P. McKeen, 59, of Pahokee and West Paris, Maine, died of a heart attack Wednesday afternoon while at work at the Cardwell Packing House of Vandegrift-Williams Farms. He had been a winter resident of this area for 12 years.

He is survived by five children, one brother and one half sister. The body was sent Thursday by Williams - Wetherington Funeral Home to West Paris for services and burial.

The Florida Egg Commission's manager, Carl Binger, advises that a housewife shopping for eggs should not consider the color, because white and brown eggs are both the same inside the shell.

Pahokee Lions Have Scout Program

Members of Mrs. J. L. Tyson's Girl Scout Troop presented a program of Scout skits and songs at the Tuesday luncheon program of the Pahokee Lions Club. The program was part of the various activities of local Scouts in observance of National Girl Scout Week.

C. P. GARDEN CLUB

Mrs. Paul Rardin will be hostess to members of the Canal Point Garden Club at the March meeting of the club to be held at her home Thursday, Mar. 19, at 3 p. m., with Mrs. O. H. Chastain to assist. Mrs. Rardin as co-hostess. Mrs. Duke Tucker, president, will preside.

Tourney Ends And Devils Eliminated

The Pahokee High Blue Devils cagers were eliminated in the second round of the Group 8, Class B, basketball tournament in the Pahokee gymnasium on Thursday night of last week by Naples, 40-32. The Blue Devils were weakened at the end of the season and in tournament play by the absence of their big center, Richard Shackford, who was laid up with a knee injury.

The tournament championship was won in the Saturday night finals by Southwest High of Miami which defeated Riviera Beach, 48-31. In the consolation contest Naples beat St. Patrick's 75-47. Alvy Early, Pahokee high-scoring guard who led the Blue Devils to practically all of their victories this season was named on the all-tournament team.

ley, pastor of the Canal Point Methodist Church.

A "warm-up" concert, preliminary to the annual District Band Concert at Pahokee, Mar. 18, was presented by the Pahokee High School Band, which was directed by Miss Ellen Morgan in the absence of Bandmaster Robert O. Lampi who was called to Michigan by the death of his father. Mrs. Helen Davis arranged the stage decorations for the concert.

Mrs. Cletis Hand, Mrs. Elaine Unwin and Mrs. Nell Hollon were hostesses during the serving of refreshments in the new school cafeteria following the program.

Mrs. Elsworth Keen Represents PTA

The Pahokee Parent-Teacher Association was represented at the Legislative Workshop, held in the Mounts Building on Military Trail Tuesday under the sponsorship of the Palm Beach County PTA Council, by Mrs. Elsworth Keen, legislative chairman for the County PTA Council; Mrs. Roy Vandegrift, Jr., president of the Pahokee PTA; Mrs. R. M. Sanders, Mrs. R. B. Simonson and Mrs. Horace Unwin.

Mr. and Mrs. Edgar Wilder have as a guest her mother, Mrs. J. G. Bennett of Hendersonville, N. C.

CARD OF THANKS

Our sincere appreciation for all expressions of sympathy and comfort in our recent bereavement.

JACK HEWELL
Buddy Hewell and family
